MADICO®

Drive confidently, leaving road debris in the dust.

When it comes to protecting your vehicle's paint finish, it's a jungle of flying objects and natural forces out there: stones, gravel, sand, bird droppings, winter salt, tree sap, bugs, oil, and other road debris. Fortunately, there's an easy, long-lasting solution to protecting your vehicle and maintaining its new car look.

Protekt® PPF by Madico® is a transparent paint protection film with an industry-leading top coat that eliminates scratches over time, making it virtually self-healing. The film is optically clear and is resistant to stain and discoloration.

For even more protection, it's backed by a 7-year warranty.

Full range of vehicle surfaces:

- Hood
- Bumpers
- Fenders
- Side view mirrors
- Grills
- Rocker panels
- Rear quarter panel
- Truck bed rails
- Door frame edges and thresholds
